OMEGA COMPLEX
BOOK 2: QUASAR
ANNNNANKE!

ART: SHONEN
PFFF... You're not funny, dad! Your simulator is much more fun than today's video games
I already told you! R.E.A.L. is not a video game!
Anake... R.E.A.L...
Is not made for young nine year old girls to have fun with! It's the most powerful quantic computer on earth. It's 500 Qbits

In short, I can't pilot the cylinder without it.
It allows us to solve cryptanalysis problems in an amount of time that is polynomial and not exponential!
STORY: IZU
Well, more essential than me, at least. You can't make out the difference between your daughter and a hologram anymore!
NO SWEETHEART! IT'S JUST THAT...
You know, dad... There's a world beyond your work, it's called reality. And in this mysterious universe... You even have a real family!

Your mother should be back from her seminar anytime now Hurry up with your homework
...
I see you still have those good ol' habits, professor

SCIENTIFIC COUNSELOR: ADE
But I hope vodka is not causing the new "delay"!
I've had enough You've been telling us the same thing for two years Our shareholders want concrete results
TUMB
CLAC
Everything... Everything is coming along. Six or seven months from now

I already told you: the cylinder is capable of generating a wormhole. That is like a black hole to a white hole on the other side of the universe. You see, we can gather the antimatter, but the problem is that we still can't stock everything!
Impossible. The construction of the cylinder and R.E.A.L. has already cost us many billions. In two months our company will start selling its new antimatter rockets. If you can't bring us the fuel in time, the most powerful corporation on earth will go bankrupt.
The antimatter that we gather is quite different than the one we make on earth... To stabilize such energy, I would need a lot more delta magnetic crates.
I might have something better. I am on the verge of discovering a way to use wormholes to time-travel!

Come back to reality, crazy old man! You have three weeks to fulfill the contract or else I'll have another present for you!
It would be a shame for your cute little daughter to end up like her mother!
WHAT... JULIA?

NOOOOOOO!

CHAPTER 5

PREVIOUSLY, ON OMEGA COMPLEX...

U S A, 1987

Seven years after the end of the nuclear war with the Russians, the United States is progressively reconstructing.

To fight against the effects of radioactivity, a medicine, G H O S T (GRAY HUMAN OMEGON SYNTHESIZED TREATMENT) is distributed to the population. Available in small quantities it quickly becomes a black market commodity. Furthermore, its secondary effects can turn certain patients into monsters. Eryns

The most powerful Eryns serve the American government and are part of the Order of Omega Knights, directed by President Wood. His final objective is "Project Omega", aimed at protecting the country in durable fashion.

Kama Manhattan is a bounty hunter. He scours the country on the trail of dangerous Eryns. His latest target is called Ananke, a terrorist who stole a nuclear bomb (the Tsar Bomba) to attack the new pentagon. With the help of Doctor Angelique William. Kama starts on a trail to find Ananke. Stuck in a conflict with the mercenaries of Diefenbaker, who also tracking Ananke, Kama discovers that he is a Pulser, the most advanced stage of an Eryn mutation. While trying to protect his best friend, Bob, he is then severely wounded.

Kama and his team manage to run away with the help of a mysterious individual, Khan. He insists on accompanying them to Mount St-Mitchell where Anake might be. But before they arrive, they decide to stop at Sho no Yoshitsuna, an ancient Omega Knight that could save Bob...

KAMA, ANGIE, SONIA BOB AND KHAN
REGION OF PIEDMONT NORTH CAROLINA
JANUARY 9TH 1987, 10:57.

FASTER! BOB IS GOING INTO CARDIAC ARREST!
Don't worry! We're almost there, and your mysterious savior will make everything alright!
And maybe... We could have some good times together... What do you think, Angie?
Do you get a kick out of provoking her?

Right. Angie baby?
Kama. Bob might not even make it... And that makes you laugh?
Hey, we don't know if we'll still be alive tomorrow might as well laugh while we can, no?
For a lot of people, humor to hide their pain... But in your case, it just seems that you cover the fact that you don't feel... anything.

Others, on the other hand, pretended no God could inflict such an affliction on its children, so they left their faith behind.
At the beginning of the war, the faithful saw the premises of apocalypse. In the nuclear rise. It meant those who would survive were the chosen ones of the next era.
In that case, does god decide men's destiny? If it is the case, can we even influence his choices?
If God is perfect, he cannot make decisions he will regret. Believing in God is accepting that we do not control the story of our life, that nothing can change our past and we must accept our future, as cruel as it might seem.

BUT OUR FAMILIES ARE BEING DECIMATED!
WHY IS GOD DOING THIS? WHY BELIEVE IN HIM?
Father Having faith... Does it mean to accept fatality. Whatever may happen?
He is testing us that is why you must have faith. Each of his actions have a reason and will make sense someday. For now, we must fight to destroy the evil that eats away at our society. Such is our mission.
FATHER! YOU ARE NEEDED OUTSIDE! PEOPLE ARE HURT!

YOU... ARE YOU REALLY SHO NO YOSHITSUNE?

I am sincerely sorry. I am not the one you are looking for... And obviously, this man needs to get to a hospital. My faith cannot do much for him.
I AM SONIA MCNAMARA... THE GRANDDAUGHTER OF MAXIMILIAN! PLEASE, WE NEED HELP, OUR FRIEND IS DYING!
DON'T FUCK WITH US!
Angie says you're a fucking renegade knight. If that's the case, you can cure Bobi.

I don't have time for an identity check, so We'll see soon enough!
You are mistaken, young man. But you can kill me if it helps you get rid of your pain.
NO OOO O!

ANGIE?
It's over... It doesn't matter who this priest is... It's over!
BOB IS DEAD.
Your friend has returned to the Lord. Now, I can help you accept his death.
MORE LIKE YOU'RE GONNA GO WITH HIM, ASSHOLE!

LEAVE ME THE FUCK ALONE!
STOP, KAMA! HE'S NOT INVOLVED!
WHAT'S HAPPENING TO ME? I CAN'T BREATHE!
ARGHH...

You seem to be adapting... Then, help your friends get to safety..
...Before they explode!
Athmospheric pressure dropped under 700 millibars.
Only the most powerful Omega Knights have the strength to control air pressure... So you were followed!

HUMBLY I APPROACH THE KAMI, BY THE PRAYER OF OUR GREAT ANCESTOR KAMI IZANAGI NO OKAMI.
He's over 100 GRAY?
I HUMBLY ASK THE KAMI TO PURGE ME OF MY IMPURITIES, BETWEEN ME AND THE GREAT NATURE... WITH HUMILITY AND DEFERENCE, I INVOKE THIS PRAYER...

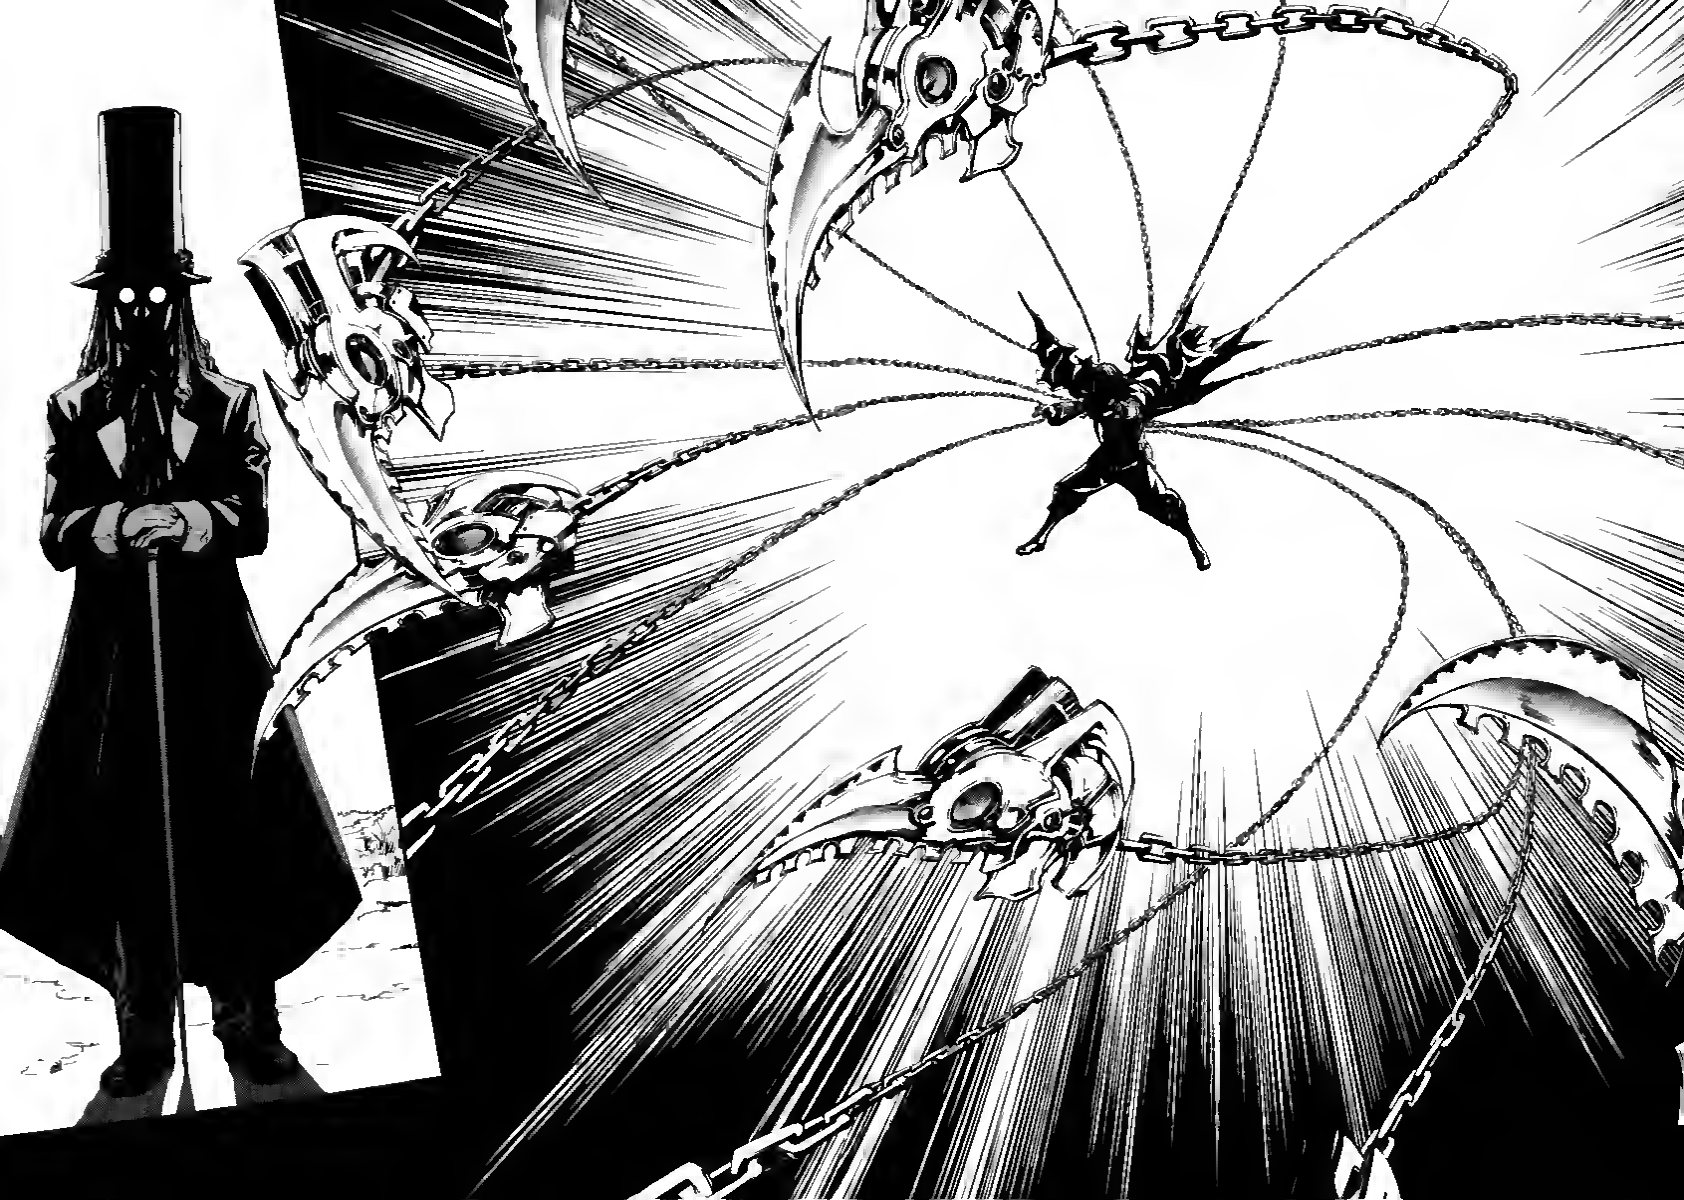
TSURUGI

What a cold greeting! It seems you were not fooled by my disguise, Sho no Yoshitsune.
I dropped the pressure on you under 200 millibars. If you try to repressurize all of a sudden, your head will explode
Knight Stigma! You... You followed them... just to find me?

You underestimate me! I always knew where you were hiding. You thought you could fool me with such a ridiculous cover... Priest? Laughable!
STOP! IT'S USELESS!!!!
CIRLCE OF GENESIS...



ARRRGHH!!!
A bio-organic weapon? Interesting.. I understand how you managed to defeat Smith

I came to talk, but if you and your friends try to do anything funny, you know how that'll end
I would like you to come back from your exile and take part in the fight. I am in the process of reuniting the seven renegade knights, and your help would be appreciated to fight the army
Come on, it's all in the past now! Today, I am a traitor, just like you
BUT YOU HELPED WOOD START PROJECT OMEGA!!
How dare you? You took Sara from me .. And now you want me to fight her?
But Wood has other plans. He wants to use project Omega to gain control of every nation on earth
That was my post-humanist side. I am still persuaded that Eryns are the next step of evolution for Homo Sapiens... In the end, I am fighting for the future of mankind

Such naiveté! It's touching. Who do you think is behind the Ananke matter?
STOP BEING PARANOID! WOOD'S RATIONAL; HE DOESN'T TAKE HIMSELF FOR GOD, UNLIKE YOU!
You know McNamara, right? He was one of the most prestigious scientists working on project Omega. I recently found his trace back in Oatman. I placed nano-transmitters on his body. All I needed to do was deliver him to Sara and listen.
HE ALREADY CONTROLS THE MOST POWERFUL NUCLEAR ALLIANCE. WHY WOULD HE PLAY MASTER OF THE WORLD? ANYWAY, HE DOESN'T HAVE THE MATERIALS TO COMPLETE HIS MACHINE!
Sara has nothing to do with this!
On the contrary. She trapped Ananke and her mercenaries. She let them steal the Tsar Bomba, letting them think they could use it to destroy the new pentagon.

That Wood absolutely wants to complete his project. Silicium nanotubes
Why? Simply because those terrorists have something precious with them
Our dear president thinks he is untouchable, but destiny is in our favor
This Kama has the rank of Pulsar. I saw him begin an initial phase against one of my men. If both of you join us, we will be strong enough
So you came for this Pulsar in the end, huh? Thanks for telling me. I can stop faking now
You're counting on him to beat Sara the Dark?

Sneaky. You've gotten used to my technique since the last time. But this doesn't change my proposition. And you cannot beat me. You are either with me... or dead.
Hummm... So you let yourself get depressurized on purpose?
Knight Stigma... I very well know no explosion can touch you...
... But it will surely kill this Pulsar that you want so much!

You still don t understand? Stopping project Omega is more important than our little feud! But so be it... It would of course be stupid to waste a Pulsar
CLAP
It is time for you to open your eyes, Sara has changed. She has become Wood s pawn, and will do anything for him to achieve his plans
By the way, the scientist was right. Ananke is at Mount St-Mitchell and Sara will be there tomorrow for the decisive battle. You know what you need to do
To show my good will I will bring that one back to life. His heart stopped about seven minutes ago, he should make it.
If you're scared to face her, at lenst train Kama so he does it in your place.

It should be fine. But your friend Bob was badly burnt. I don't have enough GRAY anymore to complete a total cellular regeneration...
...I will place him into a protection pod in the basement. He will be secure for a few days...
Mister... Will they make it?
We'll come back for him once we take care of things. For now, I have to take care of the other... The excited one
Fucking headache... I don't remember partying...

You're no prophet, nor a hero. At best you're a calamity.
ME? BUT WHY? I'M WORTHLESS! YOU'RE NOT GONNA PULL THE CHOSEN ONE TALK AGAIN!
Ahhhh! You abused me while I was asleep!
I admit having a thing for manga heroes with a hedgehog cut.
More seriously... The guy that attacked us was diefenbaker, right? I should have known he was an Eryn... He was still after Angie?
His real name is Stigma. He used to be the number one of the Knights of Omega... He was most likely turned because his ego was as big as Wood's... But he still has a level of 500 GRAY and it's your power he wanted.
The rank of Pulsar is given to knights that have the potential to reach 1000 GRAY. It is a great power, but it can be dangerous if not controlled. I have a proposition to make. Your answer will decide your destiny!

OMEGA COMPLEX

CHAPTER 6

Excerpt from Professor Mc Naramara's notes in The Omega Project.

THE SEVEN RENEGADE KNIGHTS:

From 1978 to 1984, seven knights from the order of the Knights of Omega will rebel against professor Wood's authority
Their only thing in common is having attempted, by various means, to uncover Professor Wood's most closely guarded secret: the Omega Project's true objective

For years, several theories have confronted the issue, from the official version to the most complex conspiracy theories, including esoteric explanations. It was a Manhattan couple who first discovered the truth about President Wood's i
ntentions. But they disappeared without a trace...

What revelation could have prompted the departure of the seven knights? Who else knows? Since these incidents, the seven renegades are considered traitors to their homeland and are hunted the world over by the American army and bounty hunters.

They are still designated as public enemy No 1 in the USA.

The list of seven:

- Digamma (F)
- San (M)
- Stigma (ς) (Knight of the Quasar rank, former No 1 of the order)
- Hata ( )
- Koppa (Q)
- Sampi ( )
- Sho (ρ) (Sho no Kotaro, died in 1979. Successor: Sho no Yoshitsune)

Don't be such a baby Yoshitsune! You need to keep up your strength
Uh... Sara... Can't you call me by my name? And you know... I appreciate you preparing dinner but... I'm a little stressed and
And besides, it's been a year today that you saved my life! It's only natural that I'd take care of my future husband.
Oy, oy, oy... I'd rather face an Omega Knight!
My God...

Damn, they must have stuck.
It's no big deal, we'll just eat it another da—
But... But what're you doing?!!!
I won't let you die of hunger!

No doubt about it, it's really him, Stigma the order of the Knights of Omega's No.1. We have to stop him before he tests Ghost on the population and turns all these people into monsters!
This is it? It's for real this time?
...THE ARMY... WITHIN A FEW MINUTES... CROSSED THE BROOKLYN BRIDGE... FREE DISTRIBUTION OF GHOST...

How long will we have to wait for the results?
We'll know in less than eight hours—whether they return to good health, or whether they turn into Eryns.
Perfect

But, sir, there are children and...
You'll take those with potential with us. Kill the rest...
And?

Wood ordered you to kill my master, Sho no Kotaro, because he learnt the truth about Ghost... If you cough up the secret, I may spare you...
Hahaha! You're mistaken. Your master always knew that Ghost had secondary side effects! We knew it from the very start. He even helped us improve and propagate it! We just had some differences of opinion on its final objective, The Omega Project.

But to be completely honest with you, nobody asked me to kill the former knight of the letter sho. I just used my initiative. I didn t find him all that much...Fun

DO YOU THINK YOU CAN KILL A QUASAR-CLASS KNIGHT SINGLE-HANDEDLY, BOY?

...For my little private army!
You're nothing but a formality..

Hmm... You used the Sword of Balmung to turn my men into mutagen-type Eryns. Well done... But futile!

BOOM
Ridiculous! You're wasting my time!

Stop tiring yourself out! My micro black hole barrier sucks in all of your attacks!
Seriously, did you have any luck with women before your started wearing the uniform?
Yes, too much in fact! It s tough being a celebrity
To see the extent to which the least power can turn the heads of losers like you

I knew from the start, that IF you killed my master....
The Ghost Sword of Balmung... She's magnificent! A single cut and the lowliest human becomes a mutant!
Finally! I'd have put in the time to recover this.
...It was to steal his swords, starting with Balmung!
Too bad for you... That's Colada, the shield sword that you have in your hands!
SHIT!
HUH?
CLANG

If I used Balmung on your men, it was only to draw your attention to it. Afterwards, I only had to make it look like I'd lost it for you to pick it up. Only in the meantime, I switched it with Cotada--This sword allows me to create a force field similar to your own, based on the destruction of matter.
I see. When two attractions are of the same intensity, they cancel each other out. If I used my barrier now, I'd be pulverised.
Ah yes, the famous Quasar rank. But there's a level much higher than yours, the Pulsar! And before dying, my master had the bright idea to tell me the whereabouts of the last one.
I'm your prisoner, bravo. But you can't hit me either. And in any case, none of your attacks would be strong enough to take me down!

You think it worked?
Yes. Your pulsar ray hit him the moment I lifted the shield. He couldn't activate his own in time...
Yoshitsune?
No... I beg you... No...
WH...WHAT'S HAPPENING?
ARGH!

H...HOW? I'M SURE I HIT YOU!
His heart just gave out. I wanted to have a little fun with you, but I should have finished it earlier.
If Yoshitsune had perfectly timed the lifting of his shield with the impact of your ray, I'd probably wouldn't still be there. But, he was a little too cautious and acted one hundredth of a second too early. I was able to reestablish my defenses in time.
Monster... You... You must die!

YOSHITSUNE!

My God... What have I done?

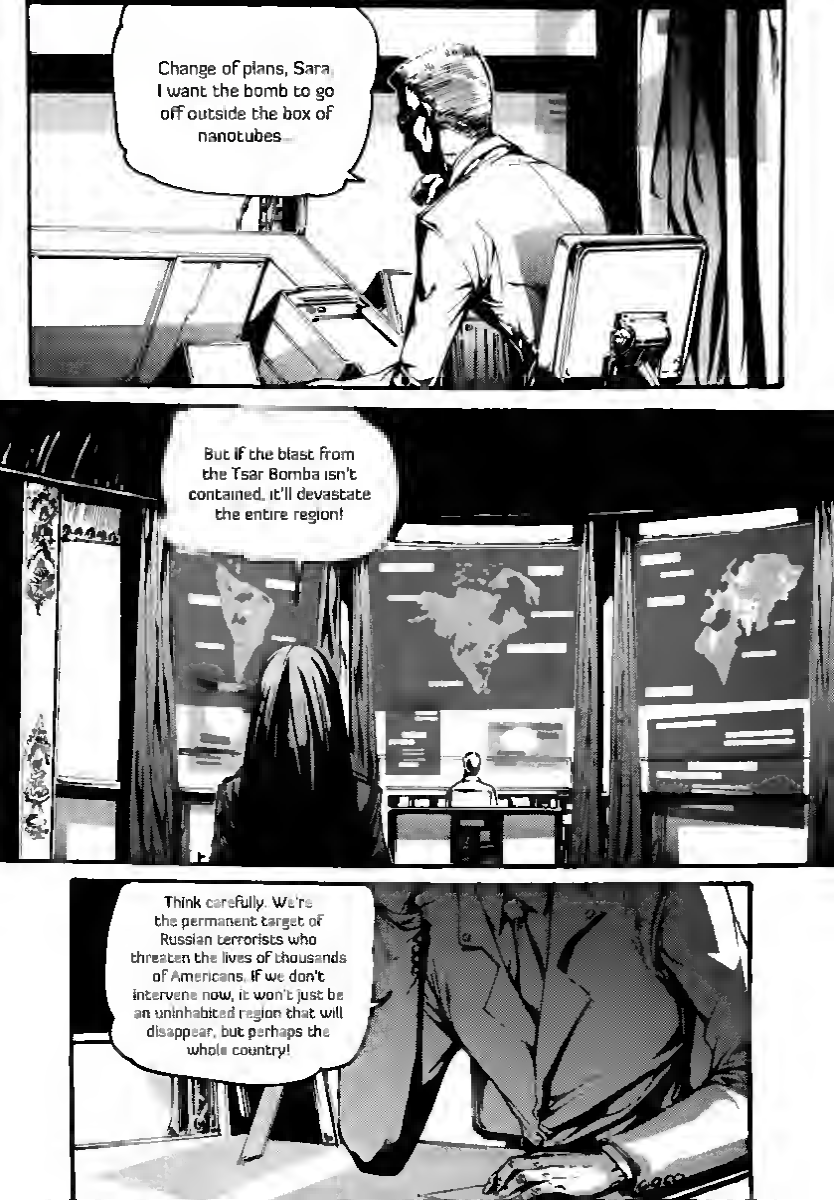
Don't worry
We'll put the blame on the Russians for this explosion. It'll be one more reason to bomb them!
NOOOO!
Finish me... I don't deserve to live!
All this... All these deaths... All this for nothing...

...It s true that we were aware of its secondary side effects when we created it... But Wood still wanted it for a specific goal...
I don t know what Yoshitsune told you about Ghost ..
This works out well — I actually wanted to test out one of my new powers... If it works I should be able to restart his heart
...We re trying to create superior beings who d have enough power to manipulate subatomic energy, and thus fix all the mistakes and wrongs of the nuclear war on this planet and its inhabitants. That s what the Omega Project is But to get there sacrifices are necessary

I can teach you to control your power so that this type of catastrophe never happens again. I want to take you to the head of the military, so that you use your gift of Pulsar in the service of the people..
I'll give your boyfriend back his life, but if you want him to keep it for a long time, you must never see him again
Become my disciple, Sara.

Sara the Dark and President Wood
New Pentagon.
Friday, January 9th, 1987, 14h18.

You want me to pull the shadow squad out of Mt Mitchell? But my troops just got there, and I'm certain that Ananke and her terrorists haven t spotted them!



Change of plans, Sara. I want the bomb to go off outside the box of nanotubes.
But if the blast from the Tsar Bomba isn't contained, it'll devastate the entire region!
Think carefully. We're the permanent target of Russian terrorists who threaten the lives of thousands of Americans. If we don't intervene now, it won't just be an uninhabited region that will disappear, but perhaps the whole country!

Yes, it's a necessary sacrifice. I want a peaceful world for our children. These fanatics must disappear.
If I understand correctly, you want to pass Ananke and her bunch off as Russian military, in order to obtain the international community's authorization to invade Russia? And the Silicium nanotubes?
VIAM
As for the nanotubes, they'll survive the explosion anyway. You, on the other hand... I've chosen Knight Baryonic Xi to replace you on this mission. Dismissed.

CHAPTER 7

Excerpt from Professor McNamara's notes in the Omega Project.
THE SHO CLAN:

Clan founded by Sho no Kotaro in 1978.

Of Japanese origin, Kotaro spent years practicing Aikido in Iwama (Japan), in the dojo of master Ueshiba. At the death of the latter, Kotaro decided to set up shop in the USA in order to promote the spread of his martial art, which he did in 1969. In the context of the nuclear war, he was spotted by the American Army who invited him to become instructor for the Marines.

In 1974, Kotaro was irradiated during the bombing of Boston. However, he continued teaching Aikido. But his state of health worsened, and in 1976, he decided to prepare one of his students to take his place. His finest pupil, Yoshitsune, was approached to become his successor.

While Kotaro lay at death's door, Professor Wood and the Knight Epsilon proposed in 1978, that he be one of the first to test a miracle drug: G.H.O S.T. Transformed into an Eryn, he became the Knight of the letter SHO (p). His power allowed him to mentally control the seven bio-organic swords created by the Knight Epsilon.

In 1979, Sho no Kotaro learned of the Omega Project's true objective. He decided to quit the army and reveal the secret publicly. Accused of high treason, he was hunted by the Knights of Omega who would get the better of him before he could make good on his plan.

Yoshitsune inherits the seven bio-organic swords and a mission: to stop the Omega Project at all costs!

KAMA!
TAM
TAMU
TAM
KAMMMA! WHAT RE YOU DOING?

KLAK
OPEN UP!
IT'S NOT TRUE!

Your jokes are as rotten as ever. What's this bull?
SERIOUSLY, WHAT EXACTLY IS YOUR PROBLEM? YOU PLAN ON KILLING YOURSELF JUST WHEN WE NEED YOU THE MOST?
Contrariness, ever heard of it? You're waiting so desperately for a hero to save the world that I told myself it'd be cool to kill him off before the next episode!
Or maybe I'm simply tired of traveling with a girl, a Cyclops, a burnt-out loser, and a little middle-class shrew?

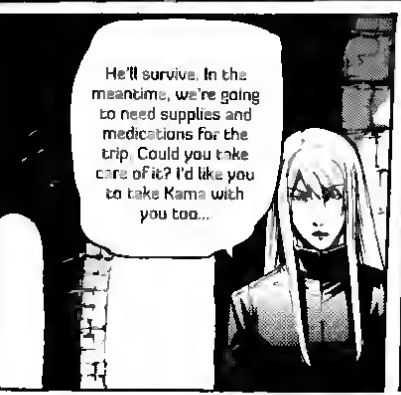
SPAK
Yoshitsune told me everything. We took a wrong turn from the start! Ananke, Stigma, Wood...Everybody's manipulating everybody, and us along with them! They want to mix me up in all this, but if I go along, you'll also be involved!
And the other big news... Is that I'm a weapon of mass destruction... A pulsar capable of leveling cities! If I can't master my power...
Kama, you're hurting me...
DAMN IT, I HAVE TO DIE, OR I'LL KILL YOU ALL WITHOUT MEANING TO!
GNNNiii

No one thinks of you as a hero or a leader, so stop feeling responsible for our fate!
You're certainly the least mature of all of us... You can trust us to make the right decisions and assume the consequences
The only thing I'm certain of, like Einstein said, is that the world won't be destroyed by those who do evil, but by those who look on and do nothing. We can't sit twiddling our thumbs, Kama.
What an overactive imagination! That's at least one good quality you have. That said, to contradict you, I'll accept Yoshitsune's training, and I'll involve you in my mess!
But that's not the real problem, is it? You've been looking to end your life for a while now in any case, with those suicide missions of yours. This tale of self-sacrifice because of the pulsar wouldn't just be an excuse to eat a bullet while holding your head high, now would it?

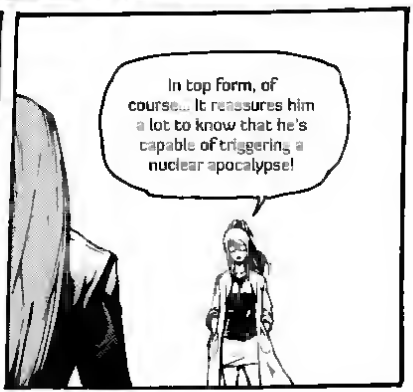
Taddaaaa! Gotcha!
Hu Hu
Huh?
?
So, did you finish?
MUHAHAHA! I'M TOO GOOD! I KNEW RIGHT FROM THE START THAT YOU WERE MADE TO BE TOGETHER!

...
PONG
So that's why you wanted to talk? You have the hots for me?
PRAK
She's more dangerous than all the Knights of Omega put together
And I'm even worse! You'd better take care of her if you don't want to have to deal with me!

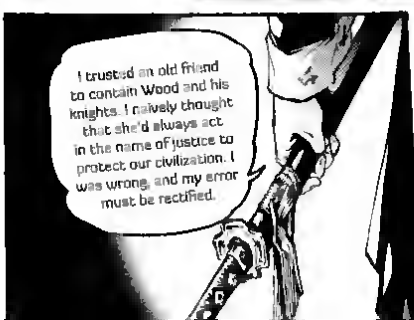
How is he?



He'll survive. In the meantime, we're going to need supplies and medications for the trip. Could you take care of it? I'd like you to take Kama with you too...



In top form, of course... It reassures him a lot to know that he's capable of triggering a nuclear apocalypse!



I trusted an old friend to contain Wood and his knights. I naively thought that she'd always act in the name of justice to protect our civilization. I was wrong, and my error must be rectified.

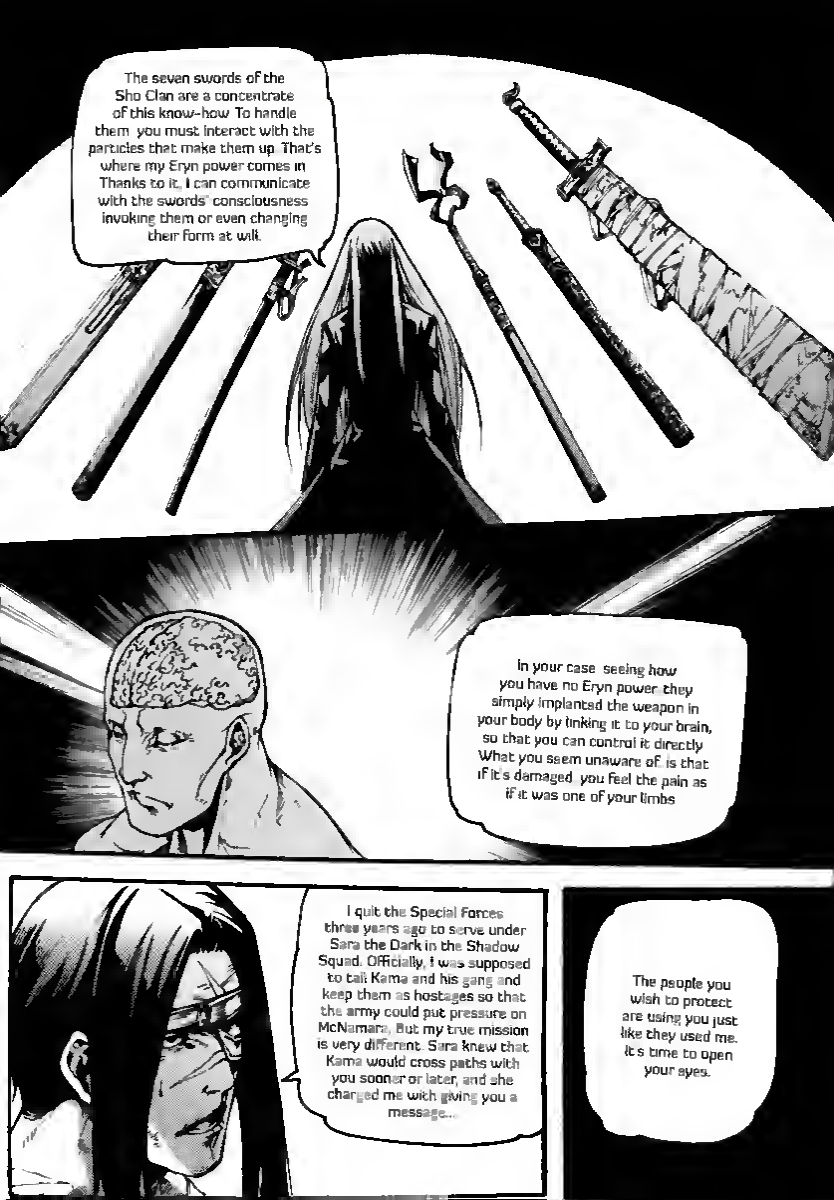
Okay, but...Why are finally helping us? We blew your cover, and you're wanted all over the country...

Yoshitsune is counting on us and our discretion...
It's an important mission...
WHY WON'T YOU TELL ME WHERE WE'RE GOING?
THANKS FOR THE VOTE OF CONFIDENCE!
...

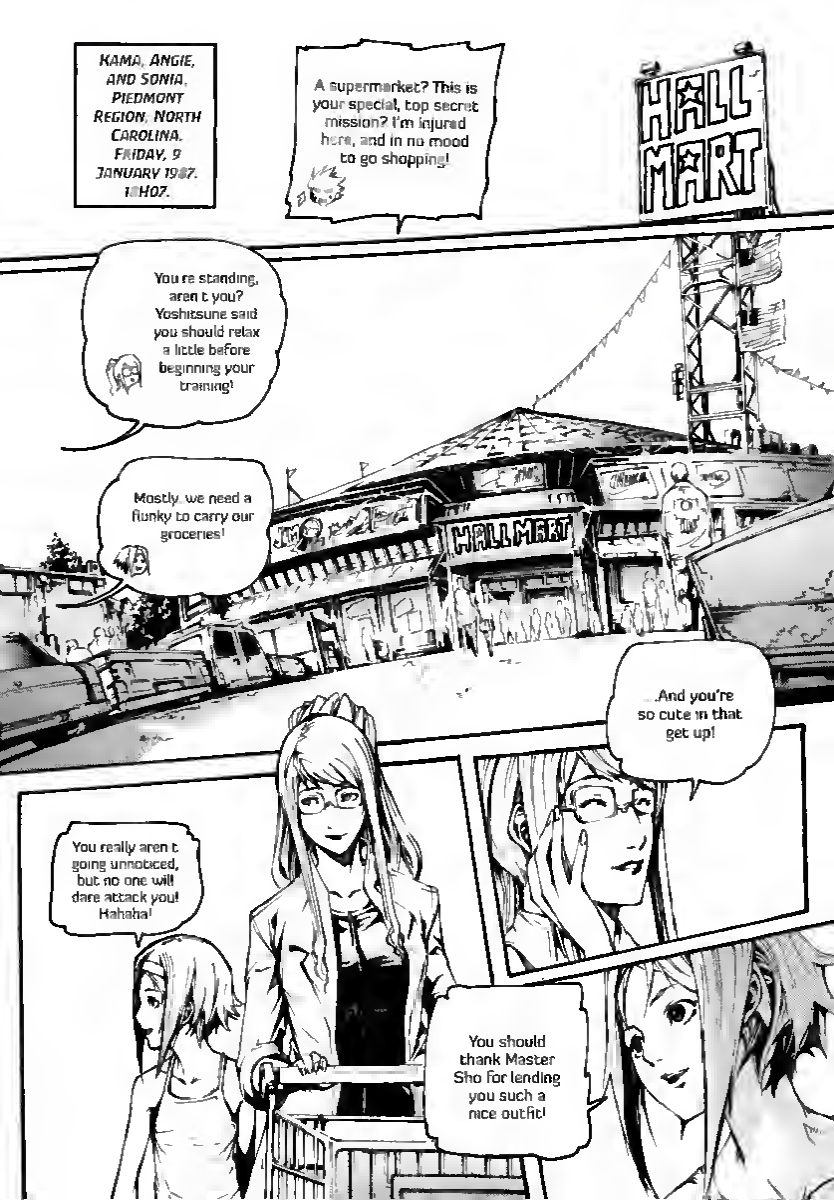
This cellular regeneration is impressive! Thanks for sa—
You have one hour to convince me not to denounce you to your friends
Huh? What're you talking about?
Wrong answer.

Damn it!
Bastard, what did you do to me?
Bad luck. There's only one man capable of creating this type of weapon—he's the one who made my swords... and last I heard, Professor Epsilon still works with Wood... I think you're part of his unit—The Special Forces!
Your body is equipped with a bio-organic weapon linked to your brain by a quantum micro-processor implanted in your left eye.
CLIC
CLIC

Haha... This may come as a surprise to you, but I don't know a whole lot about the origins of what they implanted inside me...
They told me I'd get stronger with this, but that I shouldn't ask too many questions!
So I was careful to reconfigure the program in your brain chip to make sure it was at my command. If your answers don't suit me, it'll be very easy for me to turn your weapon against you
A technology ahead of our time...
For your edification, bio-organic weapons were developed as part of the Omega Project. Forged with radioactive materials they're polyvalent and have a consciousness of their own, close to animal instinct. In reality, they're nothing more than brain chips and weapons based on the nanomachines created by Wood and Epsilon



The seven swords of the Sho Clan are a concentrate of this know-how. To handle them, you must interact with the particles that make them up. That's where my Eryn power comes in. Thanks to it, I can communicate with the swords' consciousness, invoking them or even changing their form at will.
In your case, seeing how you have no Eryn power, they simply implanted the weapon in your body by linking it to your brain, so that you can control it directly. What you seem unaware of, is that if it's damaged, you feel the pain as if it was one of your limbs.
I quit the Special Forces three years ago to serve under Sara the Dark in the Shadow Squad. Officially, I was supposed to tail Kama and his gang and keep them as hostages so that the army could put pressure on McNamara. But my true mission is very different. Sara knew that Kama would cross paths with you sooner or later, and she charged me with giving you a message...
The people you wish to protect are using you just like they used me. It's time to open your eyes.



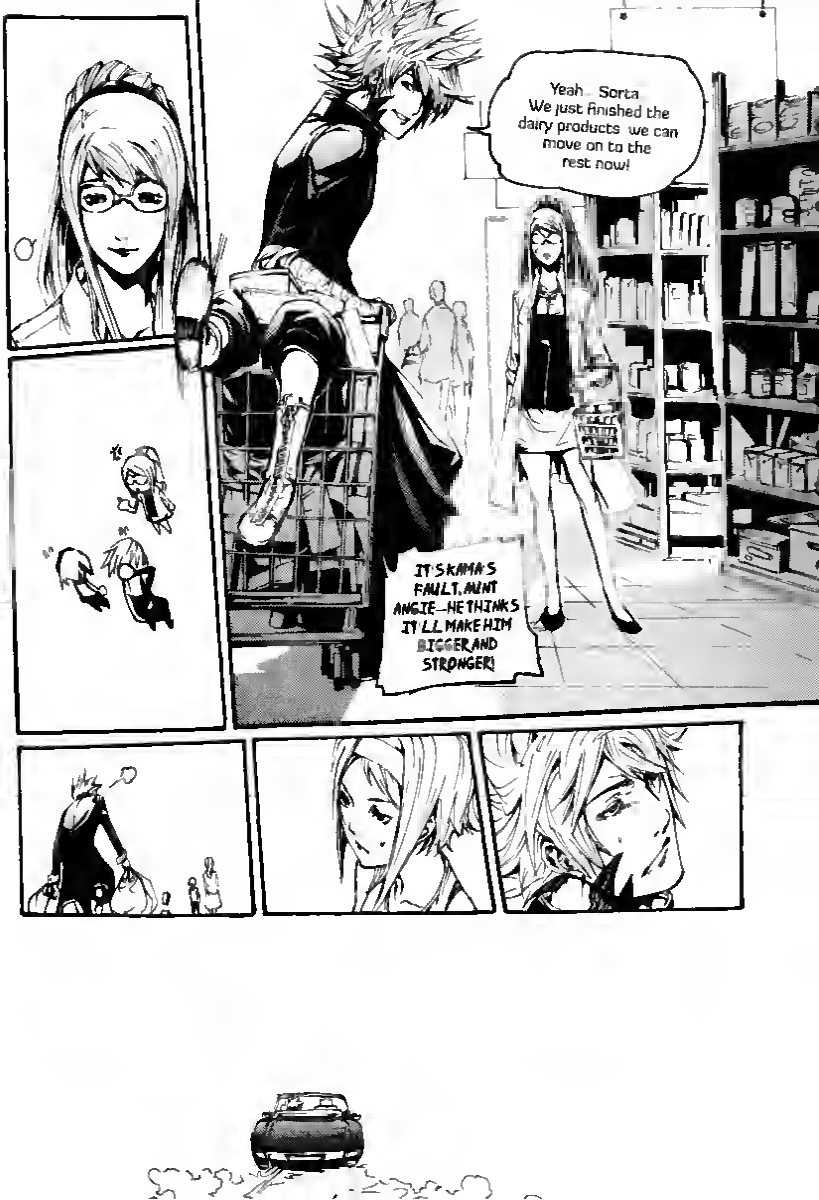
KAMA, ANGIE, AND SONIA. PIEDMONT REGION, NORTH CAROLINA. FRIDAY, 9 JANUARY 1987. 1HO7.
A supermarket? This is your special, top secret mission? I'm injured here, and in no mood to go shopping!
HALL MART
You're standing, aren't you? Yoshitsune said you should relax a little before beginning your training!
Mostly, we need a flunky to carry our groceries!
HALLMART
...And you're so cute in that get up!
You really aren't going unnoticed, but no one will dare attack you! Hahaha!
You should thank Master Sho for lending you such a nice outfit!

TAP
Pfff...In any self-respecting history, the hero always inherits his battledress from his master!
Pff
...
ADMIT IT S A CONSPIRACY!
If you wanted to lose your virginity before dying tomorrow you missed your chance! Hahaha!
SPLAF
It's clear! We no longer need to worry about bread distribution! Muhahaha!
You have no taste! I'm charisma incarnate in these threads! Now, will this shopping take a while?

It's true that grocery shopping must be a first for you... Don't panic, I already made out a precise shopping list... It should go pretty quickly!
BIG
20% OFF
Why me? Why me? Why me?

Say, Angie, how can I get boobs as big as yours?
Hmm Umm I'm not very endowed in this area, but...
You see this bottle of milk? Well that's it—You have to eat lots of dairy products!
OKAY, THEN IT'S ON! DAIRY PRODUCTS... LET'S SEE...
Low-Fat Yogurt... Essential for your waistline!
Cheese... Important for your powers!
Never have kids...Never have...

So
Preservatives
Oh my... Carbs levels are unusually high...
I need to pay attention to their health...
But what's the point? After all, we'll all be dead soon...
CHEER UP, ANGIE! DON'T SINK AS LOW AS THAT MONKEY!
It's true... Everything will be okay...
Good, I have everything I need
Did you fulfill your end of the contract?



Yeah... Sorta. We just finished the dairy products we can move on to the rest now!
IT'S KAMA'S FAULT, AUNT ANGIE--HE THINKS IT'LL MAKE HIM BIGGER AND STRONGER!

VRROOM
I see they put you in training condition
Nothing could be harder than what I just li—
Che
Be careful, dearie. Don't hurt yourself. We'll come get you to taste it!

WAM
YOU OUT OF YOUR MIND OR WHAT?!
Sorry for what will come next, but I have very little time to make something of you... I'm going to have to do this the quick way!

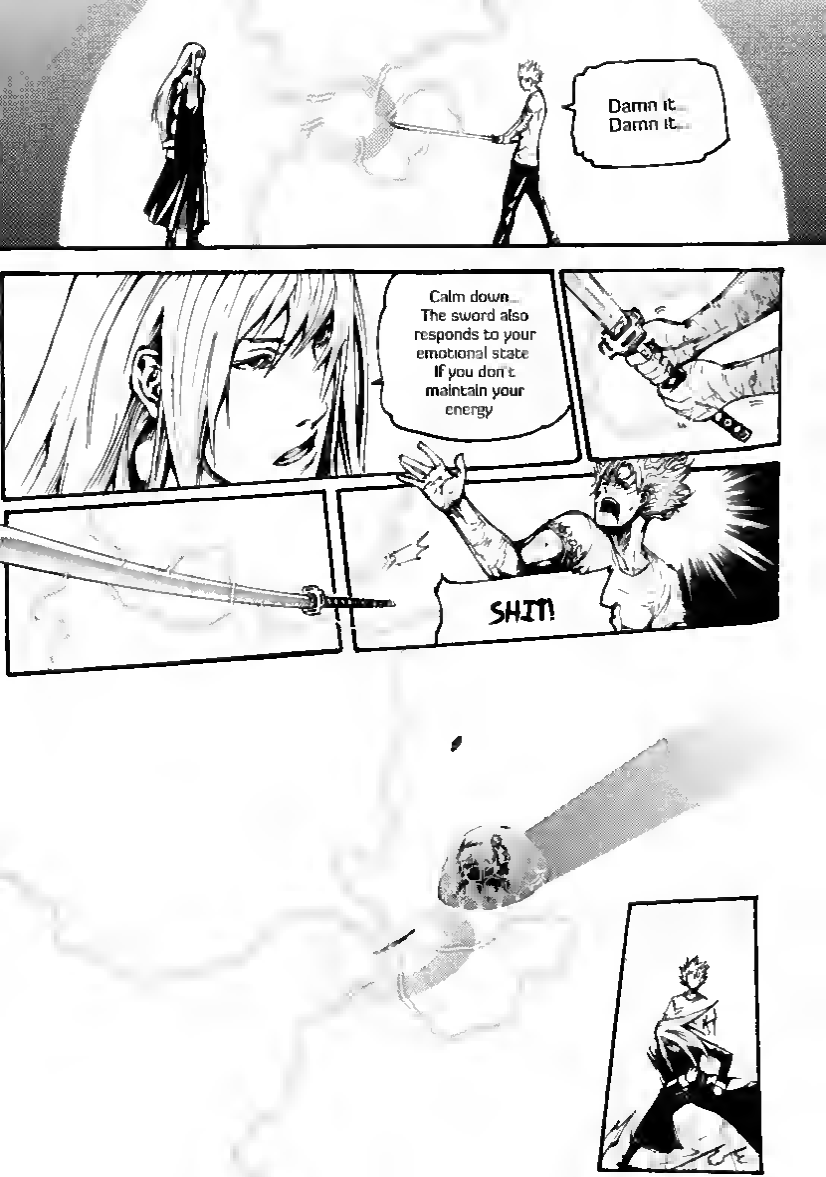
TAM
TAM
BASH
BA-
BASTARD...
Good. I see you're starting to get a little excited—you just need a helping hand

I WON'T TRANSFORM INTO A PULSAR!
TOO LATE!
OR LET MYSELF GET KILLED WITHOUT DOING ANY—
BLAM!
POW
You're much too weak to fight the Knights of Omega without your pulsar!

I'll inject you with a proton discharge, which should set off an emission of beta particles in your body, in other words, your pulsar power...
TWIK
The problem isn't setting it off... but controlling it.
No...wait!
AAAARGH!

Ama no Murakumo no Tsurugi!
Meet Tsurugi, the Sho clan's weakest sword... but the perfect weapon for a novice!
It's a power amplifier. It swallows and condenses raw gray from its wielder into an energy ray proportional to the power inputted.
The advantage is, that even if you don't know how to fight, you just have to let the sword react, focus all your pulsar into this extension of your body, and release it all in one shot!

And... And now?
You aim at me, you concentrate on the weapon, and you let it all burst out in my direction while yelling, "Kusanagi no Tsurugi!"
AAAAH



Damn it...
Damn it...
Calm down...
The sword also responds to your emotional state
If you don't maintain your energy
SHIT!

1 HOUR LATER...
May I?
I only came to fetch you for dinner. It'll get cold if you don't come in now...
Haha, clearly! Seeing how you handle that sword, you'd have missed!
It's okay! I got the lesson. I had no intention of committing seppuku!

Yoshitsune filled me in...
I see news travels fast... On the bright side, seeing how I control my power, we should die quickly tomorrow!
He thinks you're too emotionally closed off to control your pulsar transformation, and that it's preventing you from stabilizing it with your sword.
Sometimes, I ask myself what I'm doing mixed up again in this business, when I could be in the middle of shopping with some girlfriends in New Boston... I don't feel very useful here, at any rate...
Nothing to do with it. It's just that I prefer to keep my charms for the ladies rather than a hunk of metal!

$150,000 a year, a duplex downtown, a network of single girlfriends, a cat... Not such a bad life really.
Bah...In fact, no one could put up with your nasty character...so you struck up a friendship with us!
It sounds like the same line McNamara would feed me when I was a kid. The good life spent expounding on the scientific causes of society's misfortune, my ass! You realize that living in an illusion of happiness will kill you little by little, and that you felt an unhealthy urge to participate in this adventure, just to add a little excitement to your life!
I don't care about the fate of others in the end. I only followed you to find the man I loved. McNamara.
Touché. But you're missing a few details.

I'd just lost my parents when I met him, and I fell head over heels in love with my professor
We had a relationship, and he left my life too. At the same time, I experienced guilt for breaking up his family and an unbearable pain. So I decided to never again feel anything for anyone.
I don't know anything about your past, but I think you took the same road as me—we thought that to never hurt again, we simply had to shut out the world around us. But that's wrong. Our feelings make us stronger, and today, you need them to move forward.
I became the lost girl that you met. I escaped reality by hiding behind my work. So, when you came to see me, the hope of seeing McNamara again woke me up

Kama... You can't appreciate your life or find the strength necessary to control your power if you don t accept suffering Sadness, want hate That's the price to pay to attain rare moments of happiness.
Since I met you, my life has been hell...But I'm happy to be here!
Break down your defenses, and you'll control your pulsar!

And You know you can be a cute when you stop trying to be funny?
You know why I came... but if I stay... It's for different reasons.
GET A MOVE ON, YOU WON'T ESCAPE YOUR ONLY VEGETABLE DISH OF THE YEAR!

CHAPTER 8

Excerpt from Professor McNamara's notes in The Omega Project.
Omega's Special Organization (O.S.O):

The O.S.O is a unit created by Professor Wood in 1972. It's the "armed" branch of the Omega Project, specializing in secret interventions related to the progress of the project.

Its mission ranges from the capture of foreign scientists to "recruitment" of guinea pigs for the first G.H.O.S.T trials. During the war, the O.S.O also participated in numerous commando operations on European soil.

John Enver, a scientist close to Wood, is the commander of the unit, and has been since its inception. In 1978, Enver is one of the first soldiers to test G.H.O.S.T on himself. He becomes the Knight Epsilon and specializes in bio-organic weapons, which becomes his trademark

The unit has the reputation of being the devil's hand for Wood. Barbarity, torture, kidnappings... The soldiers of the O.S.O are often common criminal liberated by the Justice Ministry in exchange for their total devotion to the cause.

You shouldn't, young lady...

That alcohol's a double-edged sword. It amplifies your emotions. If you're happy, it'll heighten that sensation—If you're sad... It'll destroy you
You take me for a girl, Mr Bureaucrat?
Oh yeah? I had no idea!
?
I'm leaving on a long mission soon... So I drink 'cause it makes me want to fuck—That's all.

ANANKE
NEW CHICAGO
APRIL 16TH 2140
Ananke... My name's Ananke
You... You're a very enterprising, young lady!
And... Your parents are aware of your little nocturnal adventures?
Maybe this world doesn't deserve to be saved after all...

Without a hitch! The heart of the Tsar Bomba is activated in the DXI-D amplifier! We have 30 minutes to set the silicon nanotubes and clear out!

NUCLEAR BASE
Only one? They underestimate us that much?
FOUR OF YOU GO AHEAD AND GET RID OF HIM!
YES, CAPTAIN!
Anank! We've got a problem! Some guy's approaching the base...Judging by his gray, it's got to be a Knight of Omega!
Put on protective gowns, you never know...And above all, be careful with the nanotubes. We have just the right amount.

PLAF
Aaahhh! What fun it is to be in the mountains. It's been years that I wanted to go on a class ski trip
Hey! You know we can nullify your Ghost! Maybe we'll let you live if you tell us where your friends are, kid!

MAGNETIC WAVES!
You do me too much honor. What would you say to a little snow ball fight, gentleman?
BROOOM

YOU REALLY THOUGHT YOU'D BE ABLE TO KILL US WITH THAT?
WHAT?!
BINGO!
Yep! A perfect armor against your gamma rays!
You don't emit any gray. It's your armor that gives you so much resistance?
And your weapons? You have special bullets that nullify Ghost against Eryns, that it?
BLAM

AARGH!
It's over for you. In a few seconds... you'll exceed your break-even, and you'll die.

STELLAR NUCLEOSYNTHESIS!

You've really grown up, Dan. Xi's explosive nucleosynthesis no longer seems to hold any mystery for you.
Sho no Yoshitsune.. I'm going to make a wad of cash with the bounty you have on your head!
I present to you the Knight of the Letter XI. A gifted member of the Knights of Omega.
This is the brat the army sends to capture Ananke? Is this a joke?
Irradiated at the age of five, he'd already mastered his powers when I quit the Knights of Omega 8 years ago...Many think he's the future #1 of the order.

So? What's happening? They having fun?
The army just sent in the Knight Xi. Wood must've thought it'd be enough
But I thought Ananke and her crew had the means to nullify the Knights of Omega's powers?
It allows him, among other things, to transform his own body into a gamma ray, to dematerialize and rematerialize himself at will!
According to your grandfather's studies on the Order of Omega's powers...That knight is the only one who can manipulate xi baryons

I'm curious all the same, why you're taking the risk of reappearing? You had a good hiding place... All this for Anankeʼs bounty? You broke?
GLAG
You really intend to waste my time with your extra pals? They won't last ten seconds.
Don't talk about the Omega Project lightly. Anyway, you know too much already!
We know why you let Ananke act, and likewise, that you're searching for silicon nanotubes. So, since we were bored, we thought we'd mess with the Omega Project a little...
TGHNG
MUHAHAHA! THIS IS THE BOSS? HELL, I TRAINED FOR NOTHING, AND HERE I WAS LOOKING FORWARD TO...

SHIN
Heh...
WE DONT HAVE TIME TO COME UP WITH A STRATEGY. I DIDNT THINK WOOD WOULD SEND HIM. YOU'RE GOING TO HOLD HIM HERE AS BEST YOU CAN. I'LL GO SEARCH FOR THE NANOTUBES INSIDE THE COMPLEX!
I've heard of him often. Wood's evil genius. A dirty brat capable of teleporting at will. The perfect assassin
Shit, he really put one over on us!

SHO NO YO SHIT-SUNE! I'M GOING TO..
How dare you?

?
This isn't a game... You... You had no right to interfere!
Hey... I don't agree...

What was that thing? It seems like a light ray that came out of nowhere...
Electromagnetic energy rays—the power of Quasar...
KAMA, KHAN!
WE DON'T HAVE MUCH TIME. HE'S GOING TO COME TO. GET THE HELL OUT OF HERE!
Stop acting all macho, I know your adversary's weak point!

How'd you manage to penetrate our armor! Who are you?
I... I won't let you have the Tsar Bomba!
I copied Xi's explosive nucleosynthesis... Seeing how their armor is solid, I just had to make them explode from the inside. But I have no intention of killing you. I simply want you to stop this bomb and answer a few questions!

So you don't get it? You were played from the start! The government let you steal this bomb to appropriate your silicon nanotubes!
Sorry, but this explosion can no longer be stopped...and if I can't beat you, might as well end things here.
Hahaha! You're so predictable Yoshitsune...
Diefenbaker? What're you doing here?
...And so easy to manipulate. I knew you'd come for Sara. What a shame she didn't want to join our little party!
STIGMA!

IT SEEMS LIKE PROVIDENCE CAME TO YOUR RESCUE. YOU SHOULD HAVE TAKEN ADVANTAGE OF IT TO FLEE!
Hey, so what's the plan exactly?
TCHIIK
You don't want to know
Hey?

YOU TOLD KHAN TO TRIGGER KAMA'S PULSAR? BUT HE'LL KILL US ALL!
AAARGH!
Baryonic matter can be nullified with anti-matter by emitting radiation ..
Actually Xi has the power to create his anti-matter double, an anti-Xi who can nullify himself to form a gamma ray. He moves at the speed of light, and that's why we can never touch him
To block his gamma ray transformation then Kama has to use his pulsar in order to bombard the anti-Xi with neutrons that'll provoke the premature disintegration of his double
A pulsar? Impossible!

ARGH!
STELLAR NUCLEO ...

A shame.. You were almost there But even good things must come to an end
PAIN
No.. Not now! I can't dematerialize any more..
Sorry.. No one else will be hurt because of my hesitation!
Killed by a little girl?! Too lame.

HOW DO YOU KNOW THIS GIRL, STIGMA?
All while filling Sara in on your plan to lure her here. Afterwards, I only had to motivate Yoshitsuna to put in an appearance with his friend Kama, still too untrained to master his power. Nothing could have withstood a gust of his Pulsar, except for the silicon nantotubes, of course.
I quickly understood that it was a unique opportunity for me to recover your silicon nanotubes, all while getting rid of Sara the Dark, Yoshitsune, and the new pulsar!
We already paid you enough to learn the location of the Tsar Bomba! What more do you want?
In short, after pointing out to you the Tsar Bomba's location, I had you followed...
It turns out, my dear Ananke, that I'm not a simple Batman gangster... Your interest in this bomb piqued my curiosity.

YOU WERE HOPING HE'D SET THE WHOLE THING OFF? LIKE SARA IN NEW YORK? THAT'S HOW YOU WANTED TO GET RID OF US?
YOU AND I... WE FINISH THIS HERE AND NOW!
Exactly. The worry is that Xi came in Sara's place, and that the incompetent Kama managed to control the intensity of his pulser. In short, if you want things done right, do it yourself.
He... He managed to couple my quantic communication protocols with his power to teleport himself!
He vanished? Only Xi can move so quickly!
Pointless. The Tsar Bomb will do the work for me. Please excuse me, but a coup d'état awaits me!

It's too late. Sorry... My mission was to stop the Omega Project at all costs, to save the world... Not to destroy it!
Okay, okay, we'll listen to your confessions later. Right here and now, we have more urgent things to do... Like stopping a bomb!
I've completely failed... I just bought information from him. I didn't know he was a Knight of Omega...
Huh?
No, there's still hope!
It's not for nothing that you put up with Super Professor Angie since the beginning! I know H Bombs like the back of my hand. I can defuse it.
SHUT IT, MIDGET!
Kama, even if by some miracle we get out of this, thousands of people won't have that chance.
But the system is foolproof, and we can't do anything more! So, why fight?
HEY, THAT'S NOT THE PLAN. WE SHOULD GRAB THE OLD MAN AND GET THE HELL OUT OF DODGE!

Have a little faith in destiny, Kama. Deep down, there was reason for my presence on this adventure!
You're sure you can pull it off?
I know
Angie—
I...!..
Where's the amplification room?
Over there. My control computer is still there, but you're wasting your time

You too, Ananke. If we get out ourselves out of this, I want to know everything about the Omega Project.
All of you come here. I'll do what must be done in case Angie fails—even if there's little chance my shield will withstand such an explosion...
...
You helped kill one of the most powerful Knights of Omega today. Not too shabby for a novice!
Angie still hasn't succeeded...I'll wait for her up until the last moment before activating my force field.
Damn, I'm useless in this affair!

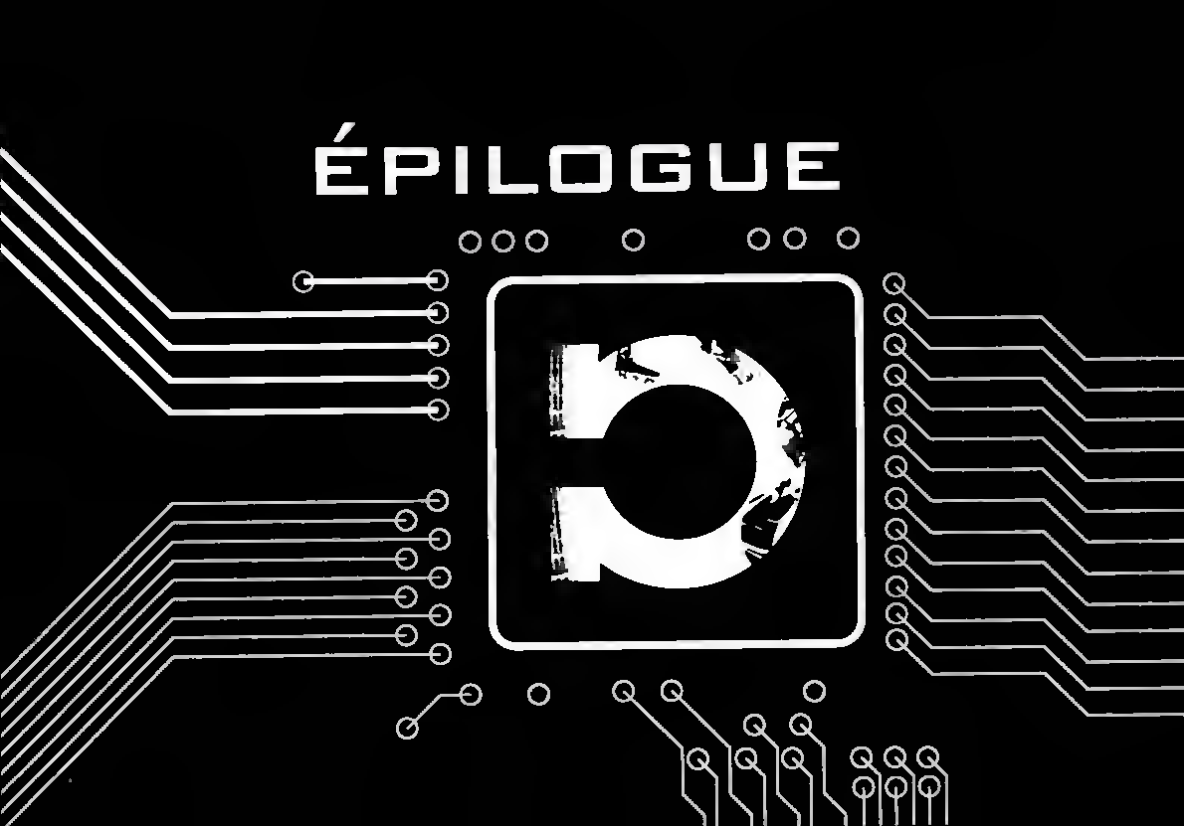
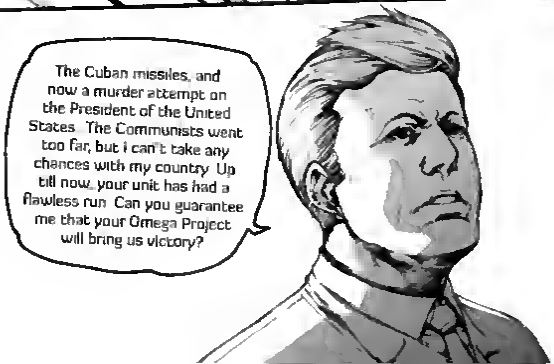
ÉPILOGUE



Thank you, Mr. President. We've known for weeks that Oswald was the shooter in the plot to assassinate you. We just had to catch him in the act.
I already owed you my life, Professor, and it would seem you were also right regarding the Russians...
...And his membership in the KGB was confirmed to us during his interrogation, which I personally supervised. Unfortunately, the Russians managed to have him silenced during his transfer. I'm sorry.



The Cuban missiles, and now a murder attempt on the President of the United States. The Communists went too far, but I can't take any chances with my country. Up till now, your unit has had a flawless run. Can you guarantee me that your Omega Project will bring us victory?

It's a slam dunk, sir! The U S S R won't have the means to combat this new power, and so we guarantee world peace! Let's simply make sure that the declaration of war comes from the Russians.
Don't worry about that, Professor Wood. I'll make sure they discover the American missiles that are still pointed at them since Turkey. That should rattle them sufficiently.
J.F. KENNEDY AND WOOD. OVAL OFFICE, WHITE HOUSE, WASHINGTON. NOVEMBER 25TH, 1963

THE KHAN CHRONICLES

ART: STEVEN CABROL - STORY: IZU

AS IN VOLUME 1, WE HAVE THE PLEASURE
OF INVITING A GUEST ARTIST TO EXPRESS HIMSELF
ON ONE OF THE HEROES OF THE SAGA.

STEVEN IS A VERY PROMISING YOUNG ARTIST, TRAINED AT THE
JEAN TRUBERT D'ANTHONY SCHOOL. HE'LL NOTABLY BE ONE OF SHONEN'S
ASSISTANTS STARTING FROM OMEGA COMPLEX VOLUME 3.

FOR THIS SHORT STORY, WE CHOSE TO ENTRUST HIM
WITH A PART OF KHAN'S PAST, ONE OF THE STILL
MYSTERIOUS CHARACTERS WHO WILL GROW
IN UPCOMING VOLUMES...

HAPPY READING.

THE AUTHORS.

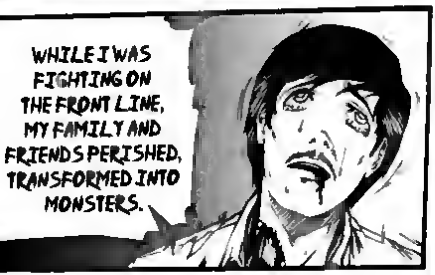
LOS ANGELES.
OCTOBER 1981.
YOU LOST AGAIN, ALEXANDER!
You must have cheated again, Justin! I can't route gold to the mine if you derail the train all the time! Where'd your sense of fair play go?
We're in the United States! Everything goes, right?

I have to go ask your father something... Don't move. I'll come back, and we'll finish our conquest of the West!

Hello, Dr Van, Mrs Van! I hope you had a good night! Can I help you Mrs.?
And Justin really thinks of you as his big brother!
Alexander, we already told you that you could use our first names... It's been three months that you've been living with us now. You're like our son!
Did you also try your best when you were in the Omega Project? And if you take in young Russians isn't it to assuage your conscience because you killed millions of others?
I try my best... But tell me, Dr Van...

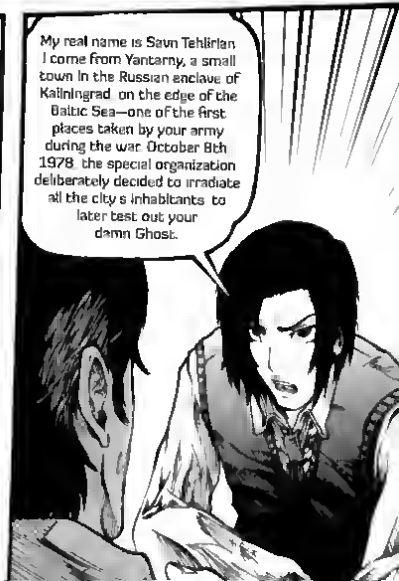
Ho...How do you know about the Omega Project? Who are you?
A SIMPLE PEASANT...
MARIE !!!!

A...Alexander... We feel and loved you like our own son... I beg you...



WHILE I WAS FIGHTING ON THE FRONT LINE, MY FAMILY AND FRIENDS PERISHED, TRANSFORMED INTO MONSTERS.

And you... Dr. Van, you were the Omega Project's biologist!



My real name is Savn Tehlirian I come from Yantarny, a small town in the Russian enclave of Kaliningrad on the edge of the Baltic Sea—one of the first places taken by your army during the war. October 8th 1978 the special organization deliberately decided to irradiate all the city's inhabitants to later test out your damn Ghost.

FREEZE, ALEXANDER! DROP YOUR DAMN KNIVES!
SHIT, HE EVEN KILLED THE KID!

WH...

NEW JERSEY.
FEBRUARY 1982
NEMESIS PROJECT HQ
Don't talk because you got your target—you've had it easy for months!
Retinal recognition confirmed
It's Sayn Tehlirian.
You're getting more and more paranoid guys!
Mikaël, your next target is Dr. Manhattan, one of the Omega Project's pillars. You'll find your mission plan and all the necessary intel in this file.
Operation Nemesis is no game, my brothers. We've chosen to exact vengeance on those who tortured and killed our families, and we've almost reached the goal!
I'm happy for you, Sayn. It was a helluva tough mission.

EPSILON? THE HEAD OF THE SPECIAL ORGANIZATION? HE'S MY TARGET?
You surprised us with Dr. Van, kid. The boss thinks you're the right man for a bigger fish. It's an honor we're giving you.
In two weeks, you're going to commit armed robbery under the name Khan. Arrange it so that you're caught and sent to prison. It's there that the Knight Epsilon recruits the majority of his soldiers.
No. We just want you to infiltrate his unit. They're less fussy with applicants. And, you'll rise in rank to enter Sara the Dark's shadow squad. And so on in the army...
...Until you can take his head!
PRESIDENT WOOD
